**3.8.2 Inbound 800/888 Service**

Inbound 800/888 Service is virtual banded inbound toll service which permits calls to be completed at the subscriber's location without charge to the calling party. Access to the service is gained by dialing a ten digit telephone number which terminates at the customer's location. Inbound 800/888 services originate via normal shared use facilities and are terminated via the customers' local exchange service access line.

Carrier will accept a prospective Inbound 800/888 service customer's request for up to ten (10) 800/888 telephone numbers and will reserve such number(s) on a first come first serve basis. All requests for 800/888 number reservations must be made in writing, dated and signed by a responsible representative of the customer. Carrier does not guarantee the availability of number(s) until assigned. The 800/888 services telephone number(s) so requested, if found to be available, will be reserved for and furnished to the eligible customer.

If a customer who has received a number does not subscribe to Inbound 800/888 service within 90 days, the company reserves the right to make the assigned number available for use by another customer.

**3.8.3 Travel Card Service**

Allows subscribers who are away from home or office to place calls by gaining access to the Carrier's network via an 800 number and personal identification number issued by the Company.
